SUMMARY

Software professional with expertise in algorithms, proficient in programming languages and adept in Kali and Ubuntu OS. Skilled in crafting RESTful APIs using Scala and experienced in database operations (MSSQL, MySQL, Mongo) with Slick and Scala. Proficient in Git for version control. Versatile in Visual Studio, Eclipse, Microsoft SQL Server Management Studio, and DBeaver. Familiar with project management tools like JIRA and Azure DevOps. A well-rounded candidate for internships in software development, offering a strong technical foundation and hands-on experience.

EDUCATION

SAN JOSE STATE UNIVERSITY
M.SC. IN SOFTWARE ENGINEERING
Now | San Jose, California

OSMANIA UNIVERSITY
B.E. IN INFORMATION TECHNOLOGY
Sept 2020 | Hyderabad, India
GPA: 3.54 / 4.0 (75%)

EXPERIENCE

DELOITTE TOUCHE TOHMATSU LLP

RFA Software Associate Analyst | Hyderabad

Handling issues related to database and stored procedures using MSSQL. Resolving tickets related to MSSQL, stored procedure, ASP files and working on server side issues. Working with client on real time issues on production environment.

YUPPTV PVT. LTD.

Software Engineer Trainee | Hyderabad

Building a RESTful API for the project named **TURITO** using Scala. Later Turito was registered as separate Company. Creating SQL Queries, schema, stored procedures to implement functionalities.

PROJECTS

• Solvas|Portfolio

As a backend developer specializing in MSSQL and ASP.NET technologies, I successfully implemented various business-required updates on MSSQL stored procedures. Furthermore, I actively collaborated with clients to swiftly resolve production environment issues, ensuring the smooth operation of ASP.NET applications.

• Turito

I served as a backend developer, implementing a range of stored procedures in Scala. I also designed APIs to facilitate all CRUD operations and conducted API testing using Postman.

• Remote Joystick

Developed an project to emulate joystick to play a game on PC without required hardware with very low ping.

• FShare

Developed a project to share an important file from admin to all authenticated users only. In this project we have used Blowfish Algorithm and LSB Steganography.
